Ashley De Verteuil, LCSW

CRCHC WELCOMES ASHLEY DE VERTEUIL, LCSW

Spencer, NC – Cabarrus Rowan Community Health Centers, Inc. (CRCHC), is pleased to announce that Ashley De Verteuil, LCSW has joined the Federally Qualified Community Health Center and will be seeing patients at Northern Rowan Family Medicine, located at 300 N Salisbury Ave., Spencer, NC 28159.

Ashley De Verteuil received her bachelor's and master's degree at the SUNY University in Albany, New York. She began her career working as a Bilingual Spanish Program Manager for Big Brothers Big Sisters of NYC. After obtaining her LMSW, she went on to pursue a position as a Forensic Social Worker for an alternative-to-bail program at the NYC Criminal Justice Agency. Ashley then went to work for the NYC Department of Health and soon was promoted to working for the NYS Office of Mental Health where she held a position at a correctional facility and two inpatient psychiatric hospitals as a Licensed Social Worker. From this role, it helped her enhance her clinical skills in utilizing different interventions, modalities, and facilitating individual and group therapy to challenging populations. Shortly after, Ashley obtained her LCSW license to seek more opportunities for growth and additional skills, which provided her the opportunity to relocate to North Carolina to begin a new chapter in her professional career with CRCHC.

"I love social work because every day is different and there is never a dull moment," says Ashley De Verteuil, LCSW. "It's rewarding to be a someone's support system to those who need it the most. I look forward to helping more people at CRCHC and growing as a clinician."

Cabarrus Rowan Community Health Centers, Inc. (CRCHC) is a community-based nonprofit organization founded in 2003 and dedicated to positively impacting the health of the community. CRCHC serves more than 12,000 patients annually by providing quality medical, dental, and behavioral health services, without regard for a patient's ability to pay, and serves as a community resource for eliminating health disparities.
